Assessment 3 Supervision record

EcoQuest Learning

Candidate and centre details

Candidate ID: _____ Centre: _____ Supervisor: _____

Actual supervised activity and permitted support must be recorded. Approximately 20 supervised hours are expected across all three tasks. Entries must describe observed work; attendance alone does not establish authenticity.

Date	Hours	Task or milestone	Support given and evidence retained	Initials

Total supervised hours: _____ Any variance and explanation: _____

Suggested milestones

Requirements and design; Python prototype; Python testing and evaluation; Clues and Games database design and import; database validation; spreadsheet analysis; final submission. The order and session lengths may be adapted by the centre.

Supervisor confirmation of recorded activity: _____ Date: _____

Any concern about authenticity, unpermitted assistance or missing evidence must be referred through the centre’s assessment procedures. No approval is implied by completion of this record.
