IQM3001_A1_REA Teacher Exercise

Reading · selected standardisation items only

Fictional AI-generated teaching material. Proposed marks are for internal exercise only and have not received human approval.

Use these selected items for a bounded teacher exercise. Each row identifies the script and item; the exercise intentionally omits a complete answer bank. Record an independent mark and brief reason, then compare with the matching reference ID.

Reference ID	Script	Item	Candidate answer	Teacher mark	Teacher note
IQM3001_A1_REA-S-01	Strong	1	False	____	
IQM3001_A1_REA-S-06	Strong	6	the exchange	____	
IQM3001_A1_REA-S-11	Strong	11	training	____

Source and governance record

Controlled source content was inspected from the supplied question paper, current mark scheme and (for Listening) the approved transcript. Source paths and SHA-256 hashes are recorded below. Keep Listening and Reading marks separate: calculate each percentage independently (Listening/50 and Reading/60), then average the two percentages for Paper 1; do not pool raw marks. All responses and marks in this pack are fictional and proposed; no human approval is implied.
