Instructions for candidates

- Answer the single writing task. Use only the unseen Part B sources issued at the start of this part and the supplied answer booklet. Personal notes, annotations, dictionaries, internet access and AI tools are not permitted. Approved assistive technology may be used only under an authorised access arrangement. Plan, write and proofread within 120 minutes. Aim for 650–700 words, excluding references. This range is guidance; the published marking criteria apply to the whole response.
- Write your response in the separate answer booklet and label it Question 1.
- Write clearly in black or blue ink.
- Use both source texts to support your response.
- The writing task is worth 60 marks.

Assessment-specific instructions

Answer Question 1 in the separate answer booklet.

Section Writing task

Question 1 Controlled writing task

Using both unseen sources, write a short academic essay, aiming for 650–700 words answering this question: How should universities combine indoor study-space improvements and access to outdoor campus spaces to support students' attention and learning? Compare the kinds of evidence, evaluate their limitations and reach a justified conclusion. Explain which source provides stronger support for one of your key claims and why. Use your own words, Harvard-style in-text citations and a short reference list.

[60 marks]

Write your response in the separate answer booklet. Label it with the question number shown above.
